

ANNASUBHA

UI/UX DESIGNER

About Me

Hi, I'm Annasubha, a UI/UX Designer passionate about creating simple, user-friendly and visually appealing digital experiences.

I enjoy understanding user needs, solving design problems and turning ideas into meaningful designs.

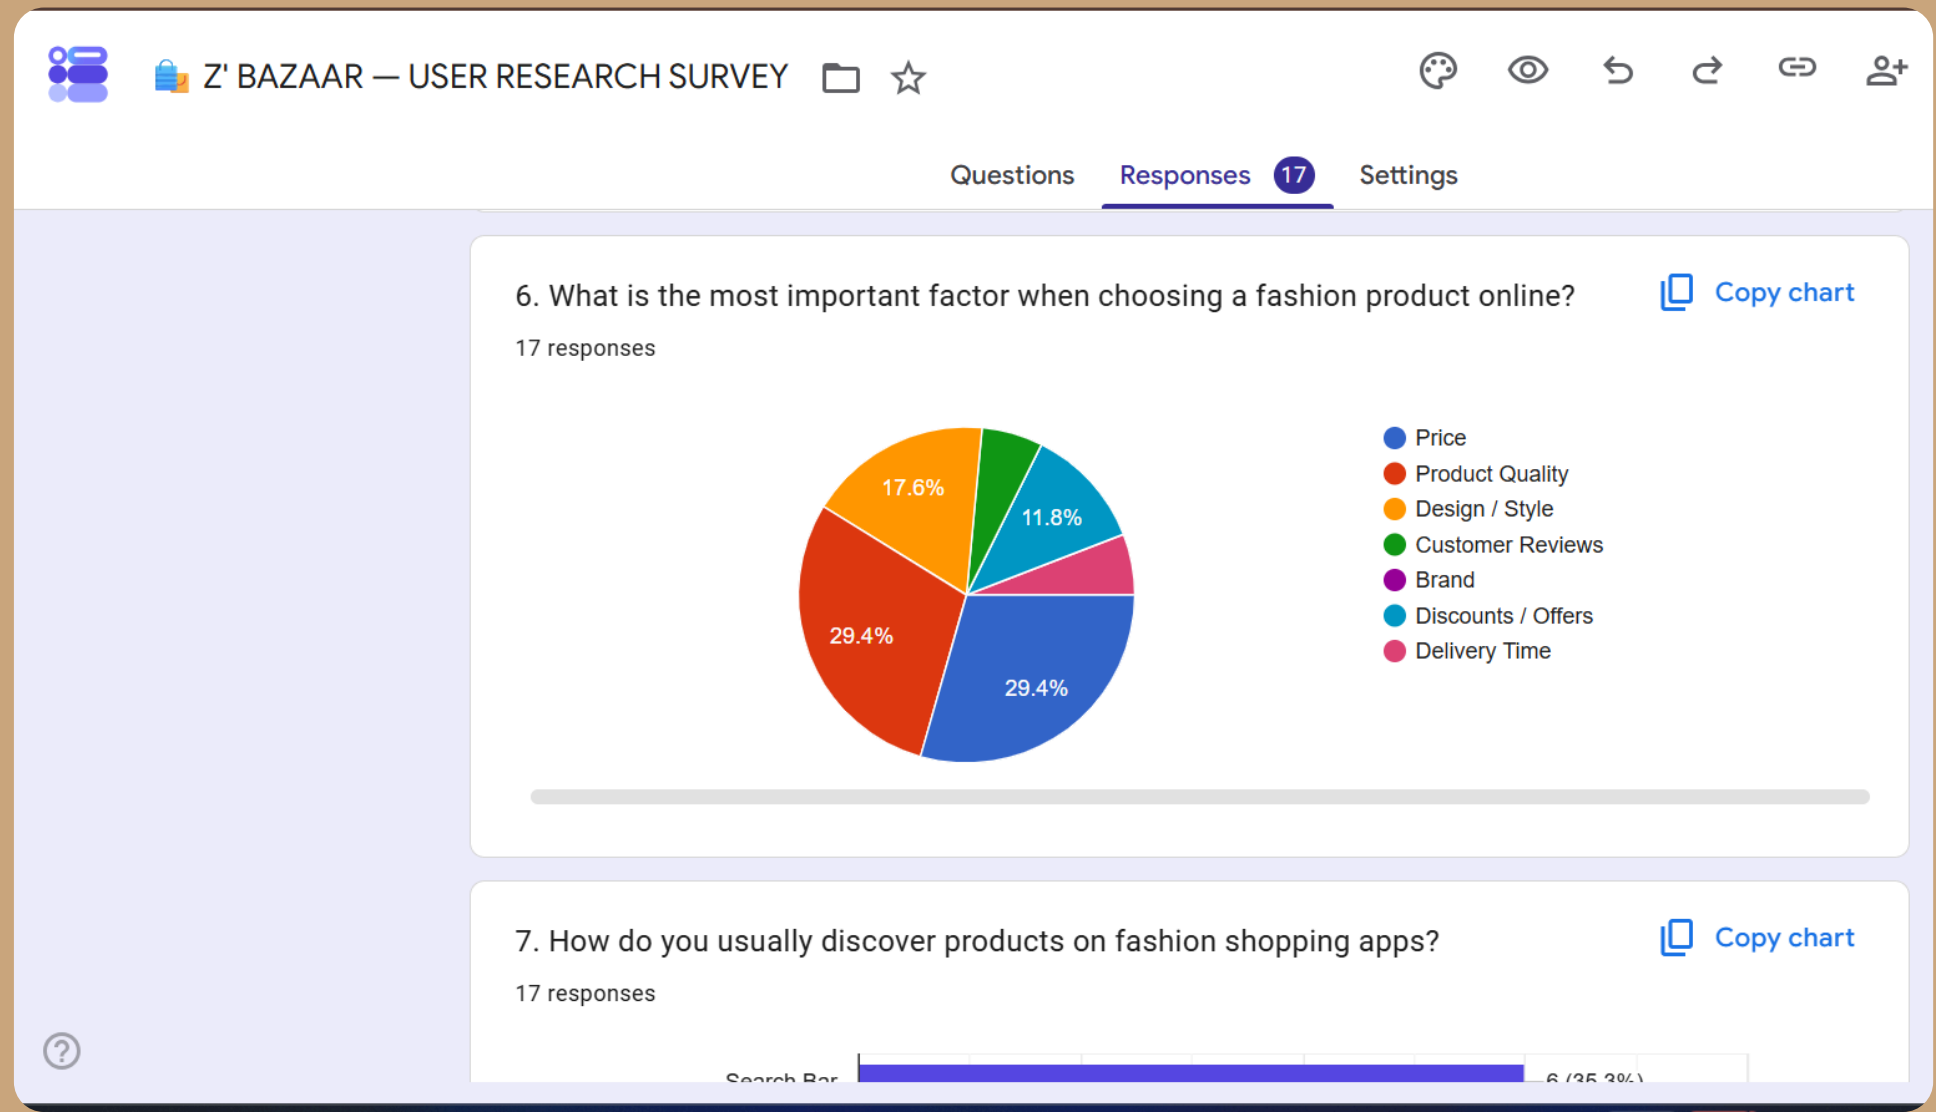

I have experience creating mobile app interfaces, wireframes and prototypes using Figma.

I am looking forward to growing as a UI/UX Designer and contributing to creative design teams.

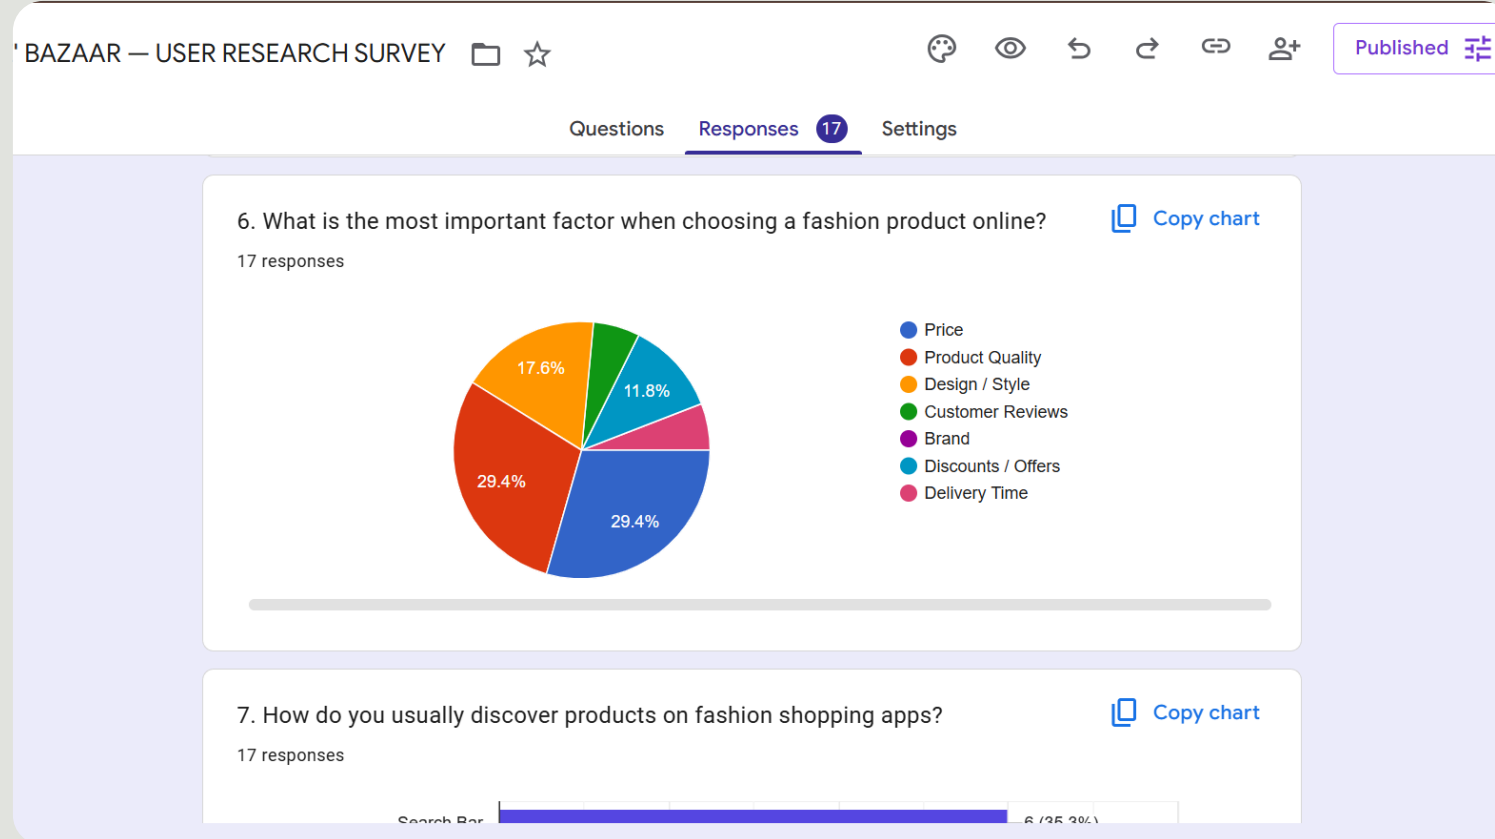

Design focuses

User research

Understanding user needs and preferences through surveys and research to create better user experiences.

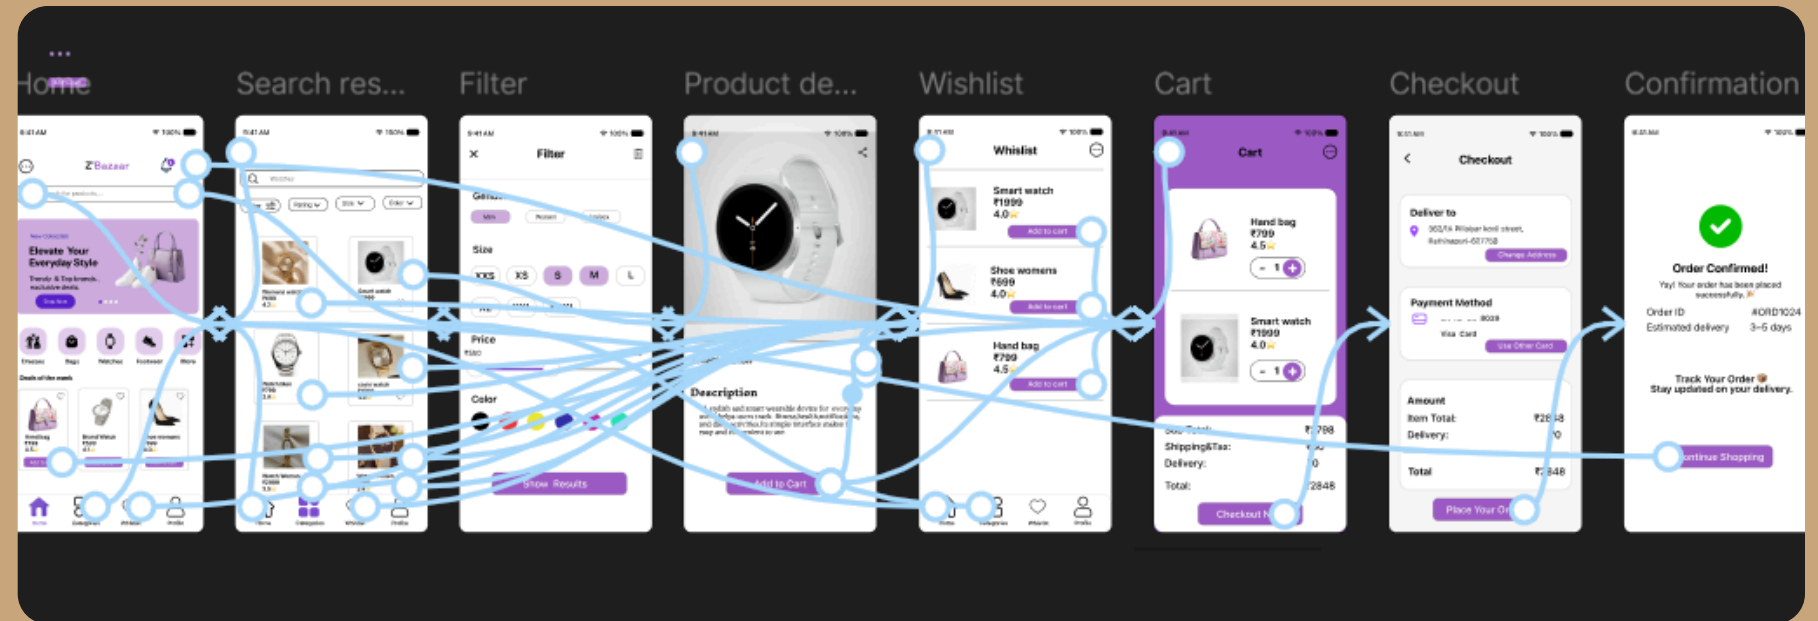

Interaction Design

Designing intuitive user flows and interactions that make apps simple and easy to use.

Visual Design

Creating clean and attractive interfaces using typography, colors, spacing and consistent design.

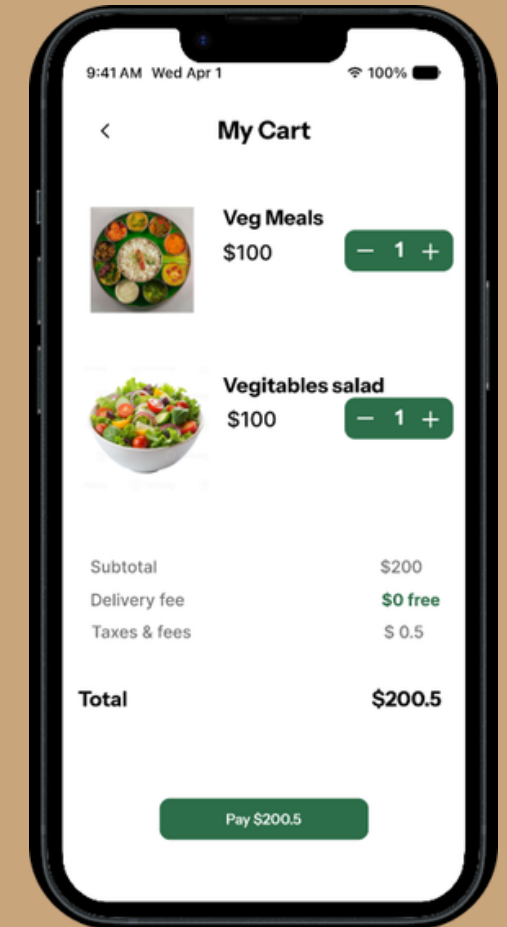

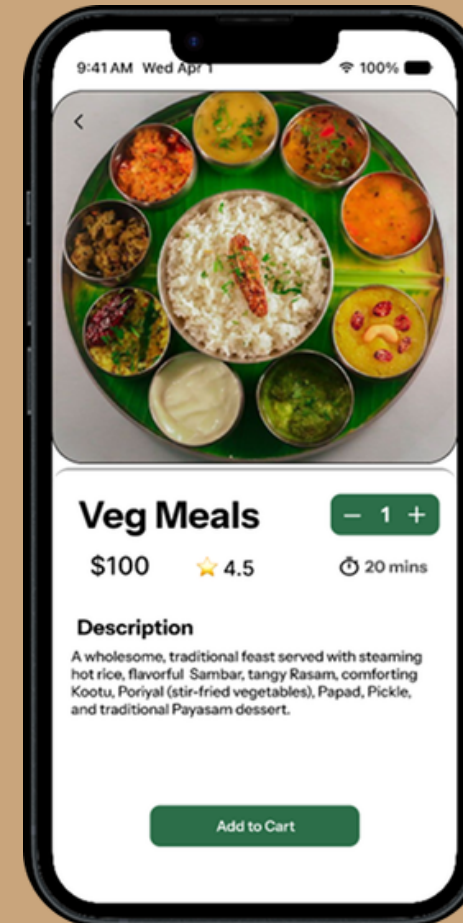

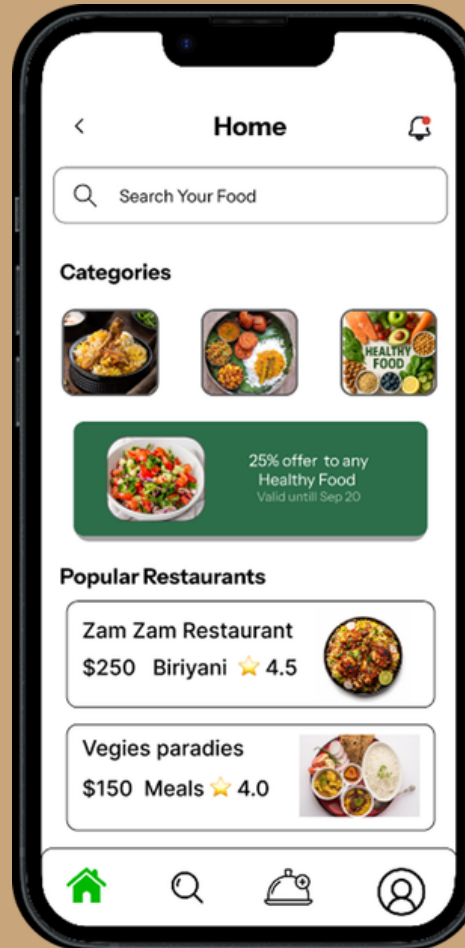

Project #1

MealEz Food Delivery App

A food delivery app concept designed to make food discovery and ordering simple and convenient.

My Role: UI/UX Designer

Tools: Figma, FigJam

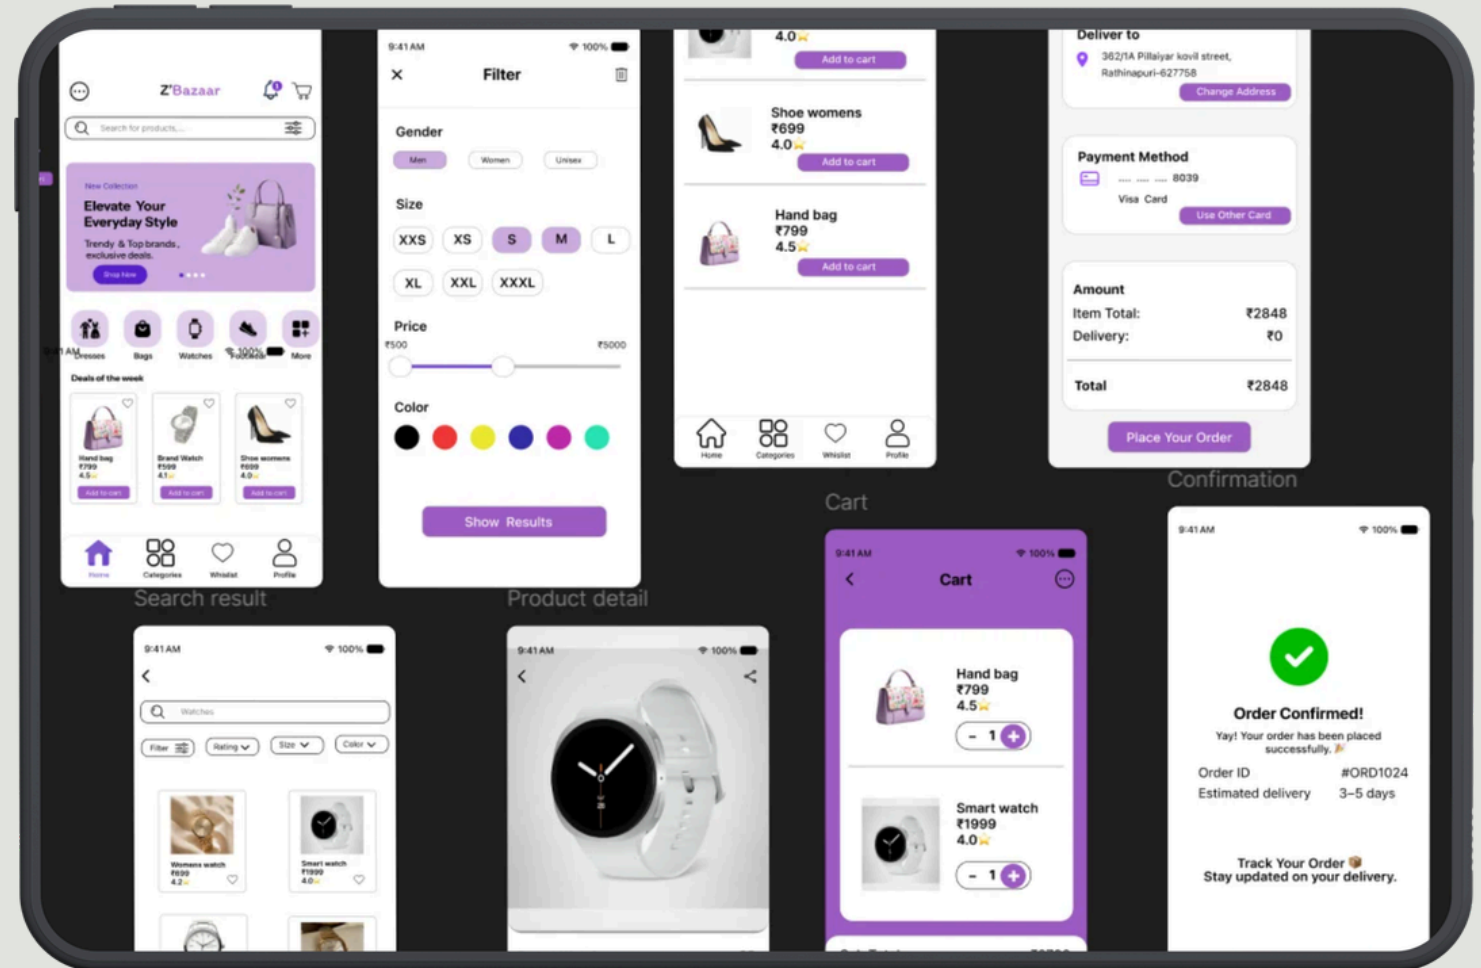

Project #2

Fashion Shopping App

E-commerce UI/UX Design

- A fashion shopping app designed to provide a simple and enjoyable shopping experience for young adults.

My Role: UI/UX Designer
Tools: Figma, FigJam

Let's work together!

I'm open to new opportunities and exciting design projects. Let's create meaningful and user-friendly digital experiences together.
